PROFESSIONAL SUMMARY

Enthusiastic Computer Science undergraduate with a solid foundation in Core Java, Object-Oriented Programming, and web development fundamentals. Currently expanding backend development skills in Spring Boot and REST API basics. Demonstrates strong analytical ability in Java collections, multithreading basics, and backend logic, seeking an entry-level Java backend or software engineering internship.

TECHNICAL SKILLS

Programming Languages: Java, SQL, C, C++, JavaScript (ES6+)

Web & Frameworks: HTML5, CSS3, JavaScript, React.js, Java Servlets, Apache Tomcat

Currently Learning: Spring Boot, Spring Framework Basics, RESTful APIs

Tools & IDEs: Git, GitHub, Eclipse IDE, VS Code

Core CS Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Soft Skills: Problem Solving, Communication, Teamwork, Time Management

WORK EXPERIENCE

Java Development Intern — Edulogy Institute

Mar 2026 – Apr 2026

- Developed core Java backend modules leveraging Object-Oriented Programming, Multithreading, and the Java Collections Framework.
- Assisted in handling HTTP request processing using Java Servlets and configured local Apache Tomcat deployment environments.
- Debugged and refactored application codebases within Eclipse IDE to improve code readability and execution speed.

Front-End Web Development Intern — RKV IT Solutions Pvt. Ltd.

Jun 2025 – Jun 2025

- Engineered responsive web interfaces using HTML5, CSS3, and JavaScript across multiple device viewports.
- Created reusable UI components across the codebase to help standardize application styling and layout structures.
- Collaborated with team members using Git and GitHub for version control and bug tracking.

KEY PROJECTS

Banking Management System

Technologies: Java, Core OOP, Collections Framework, Multithreading, Eclipse IDE

- Engineered a terminal-based banking application using Core Java to manage account creation, balance checks, deposits, and withdrawals.
- Implemented Exception Handling and Multithreading to safely simulate concurrent user transactions without data conflicts.
- Structured domain classes using OOP concepts (Encapsulation, Inheritance) to maintain clean separation of logic.

Java Web Applications Suite

Technologies: Java Servlets, Apache Tomcat, HTML5, CSS3, Eclipse IDE

- Developed web application modules using Java Servlets to process web form submissions and dynamic page responses.
- Configured Apache Tomcat server settings and XML deployment descriptors to handle local request routing.
- Utilized Eclipse IDE to test Servlet request handling and verify backend state updates.

EDUCATION

Darbhanga College of Engineering, Bihar Engineering University (BEU)

2023 – 2027

B.Tech in Computer Science & Engineering | CGPA: 7.78 / 10.0

Expected Graduation: May 2027

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Database Management Systems.

CERTIFICATIONS

- NPTEL Certification:** Successfully completed the *Programming in Java* course with an elite score of **94%**.
